# GREETINGS

*from the City of Tulips*

THERE is a time each year when the Tulip takes command of the clean, thrifty city of Holland. In years past, hundreds of thousands of people have invaded this lakeshore community to drink in the beauties of spring-time's most welcome flower, and Holland has provided a daily round of festivities to entertain its guests.

1947 is the Centennial of Holland, Michigan, and the Festival Dates for "Tulip Time" are set for May 14th to 18th. However, the blooming dates are during the month of May, and if you wish to come to see the greatest amount of Tulips in bloom, please be guided by your local weather conditions, for the blooming season will depend on whether the season is early or late. If in doubt, we will gladly advise you, if you write in and request the information.

Meanwhile, the Nelis Nurseries, who have always played a quiet but important part in this annual Tulip Festival, will do their utmost to keep alive the culture of Tulips, which their forefathers began centuries ago. In its extensiveness of varieties and gorgeousness of color, the Nelis Tulip Farm is undoubtedly the most colorful mass display of Tulips to be seen anywhere in the world. We have planted as many Tulips as in past years, and our display will be open to the public for those that are able to come to enjoy the beauty of "Tulip Time."

Dear Customers:

We take pleasure in presenting to you our 1947 Bulb Planting Guide. During the year just past, we imported many new varieties of Tulips, and are glad to report that amongst this lot were many unusual and outstanding specimens, many of which are offered for the first time to the American public, coming directly from the original hybridizers in the Netherlands. All the new varieties listed, plus many still on trial, may be seen in bloom at our display field during the month of May. Because so many new varieties have been added, we decided to eliminate some of the older ones, many of which you probably were familiar with, for superior varieties which can now be had at no greater cost, and frequently for less.

One other thing, in which you were all interested, is that Tulip bulb prices have not advanced (which is contrary to the majority of goods we all buy today). Many varieties are lower, and some which have been high priced for years are now within the reach of all. Take, for instance, a look at the new Parrot types, and compare prices with our catalogs for the past ten years.

Our listing of Daffodils has equally been improved, and no variety is offered before we have seen it in bloom, in order to judge it for American use. We would like to state here that when choosing the new varieties with orange or red centers, it may be advisable to select a partially shaded location for planting, since direct and brilliant sunshine sometimes fades the color. If the flowers are used for vases, cutting should be done before the flower is fully open.

We have given advice on deep planting for several years, and instructions for this method as well as the shallow method of planting are enclosed with all bulb orders. Deep planting may be done immediately upon receipt of the bulbs, and need not be delayed until cold weather has set in.

During the past shipping season delivery was not always as prompt as we would have liked it to be. The reason for this was that many varieties offered had to be imported and delivery was delayed because of strikes at the ports and slow shipment all along the way.

We take this opportunity to thank you for your past patronage, and we wish to assure you that we will do everything possible to merit your continued satisfaction.

Yours very truly,

NELIS NURSERIES INC.

## GUARANTEE

Except where clearly stated otherwise in this catalog, we unconditionally guarantee every bulb we ship out to be strictly top size, and to be absolutely true to name. All bulbs shipped by us will grow and bloom under ordinary conditions. We have, however, no control over unfavorable weather or soil conditions, improper planting, neglect, moles or mice, and therefore cannot assume responsibility after they reach you. Stock not reaching you in first class condition should be reported within 10 days after receipt, and will be replaced free of charge if so received. After ten days it is mutually agreed that stock is satisfactory. Do not return bulbs or plants unless so instructed by us.

# Latest Novelty and

It has been our policy for years to show to the American public at our extensive display fields, the latest varieties available in Tulip bulbs. Our 1947 listing is as nearly complete as can be desired, and contains varieties which probably will not be handled by the average seedsman or grower for another decade.

# Nelis Giant May

The modern Giant May-Flowering Tulip is the result of three separate experiments of Tulip breeding, formerly classified as Darwin, Cottage and Breeder Tulips. Through the inter-breeding of the three before-mentioned classes, the terms Darwin, Cottage (or Hybrid) and Breeder Tulips still listed in some catalogs have become so confusing that even among the best informed there are many clashes of opinion. Since the modern Giant May-Flowering Tulips contain the blood of all the three preceding crosses in proportions unknown to even the plant breeders themselves, it seems useless to maintain this class distinction any longer, as they are both scientifically and practically absolutely meaningless. We, therefore, will list them as Giant May-Flowering Tulips. The term May-Flowering is based on our Michigan climate, and in southern locations the blooming period will, of course, be earlier. In revising our list for 1947 we have eliminated many varieties which we have considered to be surpassed by later introductions.

# LATE FLOWERING Double Tulips

These double varieties are extremely showy, with flowers as large as Peonies, and come in an extraordinary range of colors. They have created a remarkable interest, and in the past nearly all the available supply has been bought by our "Tulip Time" visitors, who were able to see them in bloom. As real novelties we want to recommend them for exhibition or show purposes. Of latest introduction, quantity of bulbs is limited, and early orders are more apt to insure delivery.

# Novelty Parrot Tulips

Here is a complete list of the most outstanding novelties in Parrot Tulips. These new Parrots, in contrast to the older varieties, all have heavy, firm stems to keep the flowers erect, and are a valuable addition to any garden. These new types, strange to say, have all sported from the most popular varieties long known to the flower lover. Most everyone has admired Parrot Tulip, Fantasy, which variety is by far the best known of this new type, and which has sported from the well known Darwin Tulip, Clara Butt. They are so entirely different from all the other flowers that they provoke the startled admiration of all who see them, and are now available at greatly reduced prices.

# Botanical Tulips

These wild Tulips come in lovely odd shapes, many with reflexed petals and curiously twisted and reflexed foliage. They belong in the rock garden where they thrive and increase if left in the ground from year to year. Plant them in groups of six to twelve bulbs among the rocks in fairly well drained pockets. We have eliminated all varieties of inferior and poor blooming qualities, and only those varieties that have given satisfaction under American conditions have been listed.

Kaufmanniana, The First

# Narcissus or

In order to have a beautiful bulb garden, Narcissi should be planted freely. They thrive in practically any climate in the United States, and are not only excellent for outdoors, but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long straight stems have made them favorites for cut-flower purposes with every American gardener. We have added many new varieties to the old favorites. For a real revelation, you should try some of the new types. They are really exquisite.

That you may understand the different types coming under the Daffodil classification, the explanation below should be read:

The term Trumpet Daffodil means that the trumpet is as long or longer than the perianth segments, regardless whether the color is lemon, yellow or white.

The term Incomparabilis means that the cup or crown measures from one-third to nearly the length of the perianth segments.

The term Leedsi means that the perianth is white, the cup is short, either white, citron, or sometimes pink or apricot.

The term Barri means that the cup or crown measures less than one-third the length of the perianth segments.

The term Jonquil means that the foliage is very long and narrow, or round, in other words, rushlike. The flowers Buttercup-yellow, small, but very fragrant.

The term Poetaz means the bunch-flowering type, producing from 6 to 12 flowers per stem, and in all cases deliciously fragrant.

Suitable for Garden Display,  
Woodland Planting, or Cutting

Practically any soil has been found suitable, and they are grown equally well in the open as among trees and in woodland. Contains a mixture of large Trumpets, Leedsi, Barri, and Poeticus types, making a mixture that cannot be beaten for value, and worth much more than we charge for them. Plant at least 8 inches deep, but avoid places where water may collect at any time, as they like drainage. Try to plant before October 15th, or shortly thereafter, but place your order early, as the demand is increasing for these bulbs at this special low price we have adopted. We cannot take orders for less than fifty bulbs.

# Miniature Flowering Bulbs

To brighten up the border, for naturalizing in woodland, or for filling the bare spots in the rock garden, these miniature flowering bulbs are perfect, requiring little care, and establishing themselves without effort.

## CHIONODOXA

(Glory-of-the-Snow)

These lovely, earliest of spring flowers of deep blue, with a white center, attain a height of 7 inches and produce spikes bearing 10 to 15 Scilla-like flowers. Perfectly hardy and should be planted close together for effect. We are fortunate in being again able to offer this lovely flower. Bulbs grown from seed here at our own nursery. 50c per doz.; \$3.50 per 100; \$30.00 per 1000.

Chionodoxa

## MUSCARI

(Grape Hyacinths)

This plant has foliage similar to that of Scilla, but the flowers are of entirely different form—grapelike clusters closely set, and wonderful for use as a cut flower; splendid for naturalizing. Height 15 inches.

**HEAVENLY BLUE.** 60c per doz.; \$4.50 per 100; \$40.00 per 1000.

**WHITE.** New large size flowers. 85c per doz.; \$6.00 per 100.

## NEW LEUCOJUM VERNUM

(Giant Snowdrop)

This is an early and most attractive spring flower. Reaches a height of approximately 6 to 8 inches, and bears nodding flowers of white, tipped with green. They should be planted in early fall in a good, well-drained soil, about 2 inches deep, and are especially effective if planted 4 or 5 inches apart, in clumps. They bloom more satisfactorily after they have become well established. \$1.40 per doz.; \$10.00 per 100.

Muscari, Heavenly Blue

## SCILLA SIBIRICA

Blue. Dainty little blue flowers, invaluable for edgings, borders or massed in flower beds; hardy and very satisfactory. Height about 4 inches. 75c per doz.; \$5.75 per 100; \$50.00 per 1000.

## NEW GIANT SCILLA CAMPANULATA

This strain is being offered for the first time, and far surpasses the old types. Gracefully shaped, they make ideal cut flowers with long stems. They resemble the Hyacinths, but flower when the Hyacinths are all through blossoming. The following varieties are offered:

**HEAVENLY BLUE.** Deep blue. \$2.25 per doz.; \$16.50 per 100.

**MYOSOTIS.** Light blue. \$2.25 per doz.; \$16.50 per 100.

# Dutch Iris

A new and early flowering race coming into bloom just after the Tulips are gone. The flowers are large, resembling the Orchids, and are distinctive and brilliant in color. Flowers are of heavy texture and when cut have wonderful keeping qualities. Bulbs should be planted in the fall, 5 inches deep, on well-drained soil, with a light protection after freezing weather sets in. Offered at new low prices.

**IMPERATOR.** 28 inches. Rich dark blue with a distinct yellow blotch; very large. 95c per doz.; \$7.00 per 100.

**YELLOW QUEEN.** 28 inches. Lovely pure deep yellow. \$1.15 per doz.; \$8.00 per 100.

**WHITE EXCELSIOR.** 22 inches. Uniform pure white falls; very broad, of good form and substance. \$1.30 per doz.; \$9.00 per 100.

**MIXED DUTCH IRIS.** All colors mixed. \$1.10 per doz.; \$8.00 per 100.

# English Iris

This magnificent mixture of bulbous English Iris has been developed at our own nurseries, and contains all the choicest varieties which can possibly be had in these fine Iris. The English Iris are a bulbous Iris which bloom in our latitude about the early part of July, and come after all other bulbous Iris. They should be planted as soon after receiving them as possible for best results. They prefer the more moist and heavier soils, and should have good drainage. The blooms of the English Iris are considered to be the finest of any in the Iris class, and each individual bloom is strikingly beautiful, and as cut flowers they are unsurpassed. We are offering them in a fine mixture of colors. \$1.75 per doz.; \$12.00 per 100.

# Iris Reticulata

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Dutch Iris, or Spanish Iris. Its main value lies in the fact that it can be forced into bloom in the house with the greatest ease. Six or eight bulbs put into a 4- to 5-inch pot when received, will bloom about Christmas time. The fragrant blooms remind one of a bunch of fresh Violets. Perfectly hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rockery. \$2.65 per doz.; \$20.00 per 100.

## *New!* **DWARF IRIS**

These beautiful little Iris do not grow over four inches high, and bloom in April and May. They are fine for bordering flower beds, or planting in the rock garden. Many will bloom again in the fall. Order early. \$2.60 per doz.

## *Autumn Flowering IRIS*

Flowering Two or More Times Each Season

We take great pleasure in offering this list of the finest fall bloomers in cultivation. While best results are secured with these Iris below the Mason-Dixon Line, with a little care we have obtained excellent fall bloom in Michigan. Some of the varieties listed not only bloom profusely early in the spring, but under favorable conditions also produce crop after crop of flowers in late summer and fall. There are as yet comparatively few of these Iris in existence, and the demand has been so great that we, as well as the few other growers of fall bloomers, could fill only a small portion of the orders received last year. Please order early.

**AUTUMN ELF.** 24 inches. Olive-cream ruffled standards and lavender falls, edged with ivory. Sometimes blooms during the summer as well as in the spring and fall. 30c each; \$3.00 per doz.

**AUTUMN HAZE.** 30 inches. Standards light lavender-violet with falls of hyssop-violet. The largest fall bloomer. 30c each; \$3.00 per doz.

**BLACK MAGIC.** 26 inches. This rich purple variety, which turns to wine-red when struck by the rays of the setting sun, has enough intrinsic merit to recommend it highly, even if it bloomed only in the spring, and did not produce another prodigious crop of flowers in the fall. 40c each; \$4.00 per doz.

**McDADE'S YELLOW.** 16 inches. To round out your selection of color in the Autumn-flowering Iris varieties, be sure to include this outstanding variety of all yellow. 30c each; \$3.00 per doz.

**SEAGULL.** 18 inches. A new variety of blue-black color of remarkable intensity. A recent introduction. 30c each; \$3.00 per doz.

**WHITE AUTUMN KING.** 24 inches. A vigorous free-blooming glistening white of waxlike substance. 35c each; \$3.50 per doz.

# Aristocratic Hardy Garden Lilies

## Regal Lilies

Regals give your garden a final touch of beauty. A wonderful new and hardy Lily, native to Northern China, and very easily grown. Grows 4 to 5 feet tall. Flowers are ivory-white, trumpet shaped, with soft yellow throat; very fragrant. Bloom in July. Will give increased beauty for many years without transplanting.

### Special Low Price for Fall Planting

Large bulbs ..... 3 for \$1.95; \$6.50 per doz.

Medium bulbs ..... 3 for \$1.40; \$4.75 per doz.

## Lilium Candidum (Madonna Lily)

Also known by many as "June Lilies." This is one of the oldest, loveliest and best known Lilies. It is the earliest outdoor garden Lily. You have often admired it, with its rich perfume and snow-white flowers, 3 to 15 on a stem. It is very hardy, and will thrive in any light garden soil, with plenty of light and air.

Large bulbs ..... 3 for \$2.10; \$7.00 per doz.

Medium bulbs ..... 3 for \$1.50; \$5.00 per doz.

## Lilium Michigansis Red

Graceful flowers; beautiful native Lily of Michigan. Under ideal conditions it grows from 6 to 7 feet high; very hardy, and easily established.

3 for 90c \$3.00 per doz.

Lilium Candidum

Lilium Tenuifolium

Lilium Martagon

## Lilium Michigansis, Yellow

Yellow form of the preceding, same habits of growth.

3 for 90c \$3.00 per doz.

## Lilium Tenuifolium, Red

A dainty little Lily with slender stems and grassy foliage, blooming in June or July, producing numerous showy scarlet flowers with reflexing petals. Prefers a sunny location, well-drained soil.

3 for 75c \$2.50 per doz.

## Lilium Rubrum

Rich ruby-carmine on white, stout of substance and broad of petals. This variety stands out prominently because of its vigorous growth as well as its size, and depth of coloring. This is our first offering of this beautiful Lily, which was unobtainable for several years.

90c each 3 for \$2.50 \$8.50 per doz.

## Lilium Umbellatum

**Orange Triumph.** A startling new introduction of really brilliant orange in the Umbellatum Class. It has created a remarkable enthusiasm in the Netherlands. Height 3½ feet, with erect flowers. This is an outstanding Lily, and a remarkably brilliant color.

90c each 3 for \$2.50 \$8.50 per doz.

## Lilium Henryi

A vigorous Lily, reaching a maximum height of 7 feet. Flowers of deep orange-yellow, averaging 20 blossoms per plant. Easy growing in either heavy or light soils.

3 for \$1.50 \$5.50 per doz.

## Lilium Martagon

This dainty Lily has been off the market since the war. We have been able to contract for a supply from Turkey, where they are native. It belongs to the Tenuifolium class, but has a most unusual purple color, petals dotted with deeper purple. Blooms in Michigan during June. Don't allow the flowers to go to seed, as it weakens the bulbs.

3 for \$2.00 \$7.50 per doz.

# Superior Brand Peat Moss

## Nature's Way to a Productive Soil

Plants are living, growing things, and need a congenial environment. This means a favorable climate, and more important still, a correct soil. Soil is made up of two kinds of material; mineral or inorganic; and vegetable or organic. Both are essential sources of plant food, but the organic material (called humus) plays by far the most important part. Peat Moss is the most desirable type of humus known. It is pure vegetable matter that improves soils that are too sandy by giving them body and coherence, and it gives life and porousness to heavy soil.

Superior Brand Peat Moss is excellent as a mulch. A layer of the loose, fluffy material on top of the ground will greatly check evaporation. Applied from one to five inches deep it conserves soil moisture and prevents erosion. In winter it protects plant roots from severe cold.

Superior Brand Peat Moss is sold in bags, each containing two bushels. We will ship by freight, charges collect. Shipping weight of two bags, about 100 pounds. Each bag contains about 2 bushels of Peat. Do not order less than two bags.

From 2 to 9 bags .....\$1.15 per bag  
10 bags or over ..... 1.00 per bag

**C.O.D. SHIPMENTS:** We will book your order on receipt of 25% of the amount of the order. We will ship C.O.D. at planting time for the balance, but we will send the order **PREPAID IF PAYMENT IS RECEIVED BEFORE SHIPMENT IS MADE.**

# **Grow TULIPS**

**of  
Surpassing  
Beauty  
this  
easy way**

---

Admired by everyone for brilliance of color and variety, beauty of shape and gorgeous display, the Tulip has also earned its place in your garden because of its hardihood and resistance to all weather conditions. Once planted, the healthy Tulip bulb seems to defy all caprices of Nature, and to thrive under circumstances far too rigorous for less sturdy flowers.

**ALMOST ANY SOIL WILL DO.** Practically any garden earth ordinarily used for other flowers is suitable for the Tulip. However, the bulbs should not be planted too often in the same bed without fresh soil or without giving the bed a "rest" from Tulips now and then. There should, of course, be adequate **DRAINAGE** always.

**BULBS** such as Tulips, Daffodils and Hyacinths, as well as miscellaneous bulbs, must be planted in the fall. For Tulips there are two ways of planting, shallow for increase of bulbs, and deep for permanency. When planting shallow, plant in September, October or November, or later if ground is not frozen. When following the deep method of planting, the bulbs may be planted any time after arrival of the bulbs.

**COMPLETE INSTRUCTIONS FOR BOTH SHALLOW AND DEEP PLANTING WILL BE ENCLOSED WITH YOUR ORDER. KINDLY FOLLOW INSTRUCTIONS AS GIVEN FOR BEST RESULTS.**

**NELIS BULBS NEED NOT BE PAMPERED.** As every Tulip lover knows, success in growing is almost entirely a matter of selecting bulbs from the right source. Nelis Domestic Tulip bulbs have all the desired qualities for best results, and are so guaranteed.
